S i r,

I have the honor to state that the installation of -- Ornamental lights in all important roads and streets within the limits of Bangalore City is on the increase for the past 1½ years, and already more than 500 high power lights have been installed There is also a need for many more ornamental lights in the City

2 The Municipal Council is paying a royalty of Rs 45/- per annum for each ornamental light and including the royalty on the over-head lights, this Municipality is paying about - Rs 57,500/- per annum to the Electric Department But the annual revenue derived by the Municipal Council in the shape of lighting taxes is only Rs 26,000/- and it has become -- extremely difficult to meet the excess of Rs 31,500/- from -- other sources of income in view of the increasing expenditure on account of Primary Education and Water Supply

3 It is learnt that the Government are bearing the entire charges of all Ornamental lights in Mysore City, except 23 which are being paid for from Municipal funds

4 The Municipal Council have, therefore, resolved at their meeting held on 1st June 1929, that the Government be requested to treat this Municipal Council on the same -- footing as the Mysore City Municipality in the matter of --

of payment of royalty on Ornamental lights A copy of the resolution of the Municipal Council on the subject is herewith forwarded for favour of information

5 I request you to be so good as to obtain early sanction of Government to the resolution of the Municipal Council and communicate the same to this Office

I have the honour to be,
Sir,
Your most obedient servant,

President

---

ORNAMENTAL LIGHTS-BANGALORE CITY

I have your No EDS 194 dated the 10th August 1929 and in reply have the honour to inform you that the General Administration is paying the Royalty for only those lights installed in Mysore City at the instance of Government and I see no objection to this principle being extended to Bangalore City or any other town or village where lights of whatever nature are installed at the instance of Government

2 Where the lights are installed at the instance of the Municipality, then the Municipality should pay the Royalty This principle is being applied even to 40 c p and 60 c p lights installed at the instance of Government where the power lines cross roads such as --- Chickmallur, Lagadi, Yelhanka, etc

3 The majority of the ornamental lights installed in Bangalore City has been done at the instance of the City Municipality and they should ~~there~~ Bangalore pay the royalty thereon Bangalore City had completely outgrown the street illumination afforded by the old type overhead lights and was resulting in a great danger to traffic in practically every street in the City, largely on account of the change, since the original street system was installed, from horse-drawn vehicle to motor vehicles and I arranged a meeting in 1926 with the City ---- Municipal Commission and impressed on them the absolute necessity of immediately very considerably improving the street illumination in th City and suggested to them a suitable system of ornamental street lighting which was adopted in its entirety and provided for the ---- installation of these ornamental lights on both sides of the roads, but when the ~~illumination~~ installation was being carried out the lights were ---- ordered to be installed only on one side of the road in the majority of the places The Municipality was relieved of the capital cost of

(13)

of the installation and have been required to pay a royalty which is actually less than the cost of operation and maintenance, including the cost of power consumed This improved system of street lighting, modified as mentioned above, is still inadequate for the needs of the City and I therefore see no reason why the General Administration --- should bear any part of the royalty on this absolutely necessary ---- street lighting system
